

hackathon

challenge one :

\$RSG4BS6.rar : i lost the link in my git folder can you help me to find it.

challenge two:

the last link.txt : i played with the magic number of the head let's see what you can do.

challenge three:

lfsr : you need some algebra and some luck to decrypt my random encryption.

U need this : the flag of the format of OMC{....}.

what you should do:

you should first solve the challenge one then you'll find a link.

this link lead you to another challenge 'the last link.txt' and the file 'Hint_1.txt'.

the file 'Hint_1.txt' is the hint of the theme of the hackathon and 'the last link.txt' is a challenge lead have a link lead you to the last challenge is 'lfsr' and a hint about the theme of the hackathon you'll find it in the file 'Hint_2.txt'.

the flag you'll get from the challenge lfsr send it in the chat of the team and tag staff or admin to give the last hints.

if you need help or something wrong use the tag `atomic` or `author`
the author of the challenge wish you a good luck.
